Hi Remo,

I think you may retrieve such information from a WMI class Win32_NetworkAdapterConfiguration. For more information, you may refer to following links:

http://msdn.microsoft.com/library/default.asp?url=/library/en-us/wmisdk/wmi/wmi_tasks_for_scripts_and_applications.asp

http://msdn.microsoft.com/library/default.asp?url=/library/en-us/wmisdk/wmi/win32_networkadapterconfiguration.asp

Hope this help,

Luke
