\viewkind4\uc1\pard\lang2052\f0\fs20 Hello Jerry,
\par
\par I didn't found any document that provide a list for ZoneID property. Anyway, I believe the values are strings without blank, like "Footer", "Header", "LeftColumn".....
\par
\par You also can checking existing Web part's ZoneID property for conforming this.
\par
\par Regards,
\par
