here here

All good suggestions. And it would be a crime to put out the next version without folder and document level security.

my 2 cents

>-----Original Message-----

>Bill, I have sent out the emai. But for the discussion.

I attached my email below:

>>=====

>Hi, Bill. Hope nobody say I am not too greedy for V3 features. cheers

>>>>1. Powerful Site data usage analysis report

>>2. Enable the different permission setting per dl, per list, on an area like wss sites

>>3. more views for events, like a mini calendar view

>>4. Easier customization of portal layout with some tools to let user to change elements of the sps.css

>>5. Auto reject the dead links on portal

>>6. The folder view of the DL can display how many docs inside the folder

>>7. Now event list can all allow users to add two event items with time conflicts, expect another alternative option that users are NOT allowed to add two items with time conflict, that means only one event item one time. That will be easier for users to expand the usage of the event list, e.g. the event list can be used as a meeting room booking system.
