Event Log Errors

I have been getting these errors in the event log for some time. SPS seems to be working just fine, but I get this series of 4 errors consistantly. Any idea what may be causing this and how to resolve?

Thanks,

Jeff

Event Type: Error

Event Source: Userenv

Event Category: None

Event ID: 1511

Date: 12/6/2006

Time: 1:40:00 PM

User: SERVER\SPSTaskUser

Computer: SERVER

Description:

Windows cannot find the local profile and is logging you on with a temporary profile. Changes you make to this profile will be lost when you log off.

For more information, see Help and Support Center at <http://go.microsoft.com/fwlink/events.asp>.

Event Type: Error

Event Source: Userenv

Event Category: None

Event ID: 1515

Date: 12/6/2006

Time: 1:40:00 PM

User: SERVER\SPSTaskUser

Computer: SERVER

Description:

Event Log Errors

Windows has backed up this user's profile. Windows will automatically try to use the backed up profile the next time this user logs on.

For more information, see Help and Support Center at <http://go.microsoft.com/fwlink/events.asp>.

Event Type: Error

Event Source: Userenv

Event Category: None

Event ID: 1502

Date: 12/6/2006

Time: 1:40:00 PM

User: EAGSERVER\SPSTaskUser

Computer: EAGSERVER

Description:

Windows cannot load the locally stored profile. Possible causes of this error include insufficient security rights or a corrupt local profile. If this problem persists, contact your network administrator.

DETAIL – The process cannot access the file because it is being used by another process.

For more information, see Help and Support Center at <http://go.microsoft.com/fwlink/events.asp>.

Event Type: Error

Event Source: Userenv

Event Category: None

Event ID: 1508

Date: 12/6/2006

Time: 1:40:00 PM

User: NT AUTHORITY\SYSTEM

Computer: EAGSERVER

Description:

Windows was unable to load the registry. This is often caused by insufficient memory or insufficient security rights.

DETAIL – The process cannot access the file because it is being used by another process. for C:\Documents and Settings\SPSTaskUser\ntuser.dat
