- *From:* soniic2003 <soniic2003@xxxxxxxxxxxxx>
 - *Date:* 19 Apr 2007 14:25:42 -0700
-

Hello

Here is the situation:

- 1) Installed MS Project Server 2007 which also installed WSS 3.0
- 2) Everything was working fine.
- 2) Someone removed (but did not delete) the sharepoint central admin config database within WSS Central Admin(SharePoint_AdminContent_9ccf90b4-6993-4fcc-a4af-d7aa4147a074)
- 3) We're now unable to connect to our central admin site
- 4) Tried uninstalling WSS and Project Server 2007 but the uninstaller just exits with no warning after a few mins.
- 5) Tried running the repair for WSS and also for Project Server 2007 but they just give the following error in the log. :

<.....SNIP>

```
