Is it possible to undo a site deletion in MOSS 2007?
If yes how?

There's something called the Microsoft Site Delete Capture (on CodePlex) which will do this, but if you don't have it installed, and the site has already been deleted, you'll need to restore from a backup.

Here's the blog entry describing MSDC:

<http://blogs.msdn.com/sharepoint/archive/2007/04/30/microsoft-it-site-delete-capture-1-0.aspx>
