after i click on debug ...
it shows following error

The 'AllUsersWebPart' start tag on line 40 does not match the end tag of 'Content'. Line 111, position 59.

in site contain lookup fields and custom lists and custom content type.

Content not supported by the SharePoint Solution Generator
Some site and list templates, such as Wiki Site, Publishing Site, and Portal Site
Lookup fields and custom field types
Some site settings and list settings

may be i am getting error bcz of this.. but not sure

what is other alternative to create solution file for my site.
please give suggestions..
