\viewkind4\uc1\pard\f0\fs20 Hello super,
\par
\par It is an expected behavior that the old url still works.
\par
\par Regarding your query, you can consider creating a new web application with the new name and then attach the old content database to the newly created web application.
\par
\par Hope this helps.
\par
\par Regards,
\par
\par Ada Pan
