{\rtf1\ansi\ansicpg1252\deff0\deflang1033{\fonttbl{\f0\fswiss\prq2\fcharset0 Verdana;}}\viewkind4\uc1\pard\f0\fs20 Hello Super,

\par

\par Thanks for the clarification.

\par

\par Before we go further, I would like to know if there are any multiple-selection columns. Also, please reproduce the problem, note down the exact time (hh:mm:ss), and let us know the exact time in your reply.

\par

\par #1. Collect Trace log

\par =====

\par a. Navigate to C:\\Program Files\\Common Files\\Microsoft Shared\\web server extensions\\12\\LOGS folder.

\par b. Send me the last ULS logfile (<servername><date><time>.log)

\par

\par #2. Collect Event Log

\par =====

\par a. Click Start, and then click Run.

\par b. In the Run dialog type "eventvwr.exe" (without the quotation marks), and then click OK.

\par c. In the opening Event Viewer windows, double click event viewer, click Application, click the Action menu, and click save log file as.

\par d. In the File name box, enter the event name to be saved, and click ok.

\par e. Repeat step3 to step4 for "System".

\par

\par Please attach the log files and the screen shot of the error message to your reply or send them as mail attachments to v-adapan@xxxxxxxxxxxxxx

\par

\par I look forward to your reply.

\par

\par Regards,

\par

\par Ada Pan
