"Linking dynamically" means linking against atl.dll, by definition. Do you expect the DLL to just magically appear on the system? It is not shipped with, say, Win98 or WinNT out of the box. Probably not with Win2K either, but I'm not sure.

With sufficient thrust, pigs fly just fine. However, this is not necessarily a good idea. It is hard to be sure where they are going to land, and it could be dangerous sitting under them as they fly overhead. -- RFC 1925
