We are pleased to announce the release of Dynamsoft SourceAnywhere Standalone 2.0, an alternative of Visual SourceSafe.

Dynamsoft SourceAnywhere Standalone is a SQL-based source control solution designed to be an alternative of Microsoft Visual SourceSafe. It is for developers who are ready to migrate away from VSS for performance, security, scalability, and reliability.

The following is a partial list of SourceAnywhere Standalone 2.0 features:

- Visual Studio and Visual Studio.NET Plug-in
- Eclipse Plug-in
- Macromedia Studio Plug-in
- Seamless Migration from VSS
- Enhanced Version Control Features
- Atomic Data Transaction for Reliability
- High Performance
- Local and Remote Access
- Java Client for Cross Platform
- 128-bit SSL and Blowfish Encryption
- Password Policy to Protect Passwords
- Java SDK and COM SDK

For more information on SourceAnywhere Standalone 2.0, please go to http://www.dynamsoft.com/Products/SAWStandalone_Overview.aspx

The 30-day free Trial of SourceAnywhere Standalone 2.0 is available at http://www.dynamsoft.com/Downloads/SAWstandalone_Download.aspx

Thank you for your time.

Sincerely yours,

Dynamsoft Corporation
