Perhaps you mean "SystemStart" and not "Start Windows"

Here is a snippet of the "window proc":

```
case WM_CREATE:  
    PlaySound("Start Windows", NULL, SND_ALIAS | SND_ASYNC);  
    return 0;
```

Why isn't this working? Windows 2000 SP2 VC++6. If I do this:

```
case WM_CREATE:  
    PlaySound("hc_defau.wav", NULL, SND_FILENAME | SND_ASYNC);  
    return 0;
```

then there is no issue.

http://msdn.microsoft.com/library/default.asp?url=/library/en-us/multimed/htm/win32_playsound.as

Thanks.
