What is multi-posting? I know of cross-posting (to multiple newsgroups).  
Multi-posting sounds like posting the same thing lots of times, but this  
OP has only posted the question once and to one newsgroup, so I don't  
follow!

Thank you both. I have therefore multiposted in the past! Didn't realise it  
was an netiquette 'no no'! The reason I was driven to it was people  
complaining about cross-posting! Sometimes, you just can't win I guess!
