Im writing a program using Visual Basic .net framework and have been told by a colleague that it may be possible to reverse engineer a piece of code in order that a flowchart could be drawn using Visio's UML tool. Is this possible and how can i find out more about this?

Google finds this
<http://office.microsoft.com/en-us/visio/HP815507471033.aspx>

It's only UML 1.3 though.
