If Best Buy could sell M&M's for 20 bucks, they would.

Actually the Best Buy stores I've visited DO sell candy and magazines  
and assorted other non electronic stuff. Were you trying to make a  
point?

They've been selling Windows for years.

The sun rises in the East. Any more useful information you need to  
share we already know?

Memo to Hobbes: If you're trying to join the Useful Idiots Club by  
public audition, you're doing a pretty good job of showing how stupid  
you are and thereby qualify to join. I'm sure if you ask Frank  
directly he will welcome you with open arms.

Point being....sit down and get comfy, this may take you awhile....Best Buy  
WILL SELL ANYTHING !  
Just because they sell it, doesn't make it "GOOD", they sell rap music too.

## Re: Best Buy to Offer Ubuntu

You're babbling. You know that don't you?

The point that zooms over your pointy head is Best Buy like any retailer will sell ANYTHING that sells. Duh... is that too deep for you to grasp? If you don't like rap music or Linux, so what, others will and so they will sell it until that changes. You too stupid to realize it but you actually agree with me.

Write this down and try to remember: Different strokes for different folks. This may shock you. Some people don't like Windows. Understand yet? No of course you don't. You're just as hopeless as Frank and can't be reasoned with.

More choices is a GOOD thing. Why are you against that?

Here's something for you to chew on. I don't give a rat's ass what you or anyone uses. Pick Windows, Linux, hell pick a flavor of UNIX or try BeOS or something else, I DON'T CARE!

One thing that will for sure cause me to get up on your back and ride you till you drop as Frank is learning is once any of your idiots start wagging your tongue trying to piss on any alternative or make fun of others I'll do the same to you. Surprise, I'm way better at it. Way, way better. A smarter person would wise up.
