Hello,

I recently removed McAfee from my laptop with Vista Home Premium OP. I installed the free version of AVG Antivirus for virus protection in McAfee's place. I was

Re: How well does the Windows Vista Firewall work?

going to
look for a
firewall
program
too, but saw
that the
Vista built
in Windows
Firewall
took over
that job. My
question is
do these 2
programs
give me
enough
protection
for my
laptop? Can
I trust these
2
programs to
protect my
desktop
computer?
My desktop
is hard
wired to my
router

Your router has a firewall
too,

Usually, it has to be enabled because it isn't
enabled by default.

This is garbage Alias.

Um, no it isn't.

Yes it is Alais.

Alias doesn't know squat...pay him no mind.
