And what is the difference between 8.4 and 8.10?

You can use 8.10 now. Just change repository and made dist update?

to so with it?

I Will Be Retuning 2 Ubuntu Full Time  
When Ubuntu Intepid Ibex Comes Out  
(Ubuntu 8.10), Just FYI. Until Then I Will  
Be Dual Booting, Just FYI.

The verdict on Irrational Ibex Is that it is no different than Harpooned Heron.  
A linux distro has once again hit it's peak , and will wallow in stagnation for  
another 2 years until the repo maintainers wander off.

Back again with your lies and FUD, eh? Everyone act surprised that you don't know what  
you're talking about.

Alias

Whom are you referring to when you say "everyone" ?  
The windows users in this forum ?

They already know linux is a joke...they aren't suprised at what I say.

It's true.
