Check your computer's manual.

It sounds like the battery charge & power indicator on my wife's Gateway laptop.

Here's what the manual says...

<http://support.gateway.com/s/Mobile/Q106/Blade/8511369.pdf>

Battery charge:

LED blue – battery is fully charged

LED purple – battery is charging

LED blinking red – battery charge is very low

LED solid red – battery is malfunctioning

Power:

LED on – notebook is on

LED blinking – notebook is in standby mode

LED off – notebook is off
