-

i ran filemon on bad project and good project. since it took 4 seconds to complete the single line step in code for the bad project, i got 57 lines in the log for devenv.exe. For the good project i got 10 lines since it only took < 1 second.

a whole bunch of the 57 lines were these kind:
C:\Documents and Settings\tsteele\Application
Data\Microsoft\MSDAIPP\Offline\i\
C:\Program Files\Microsoft Visual Studio .NET
2003\Common7\Packages\Schemas\HTML\
C:\Program Files\Microsoft Visual Studio .NET
2003\Common7\Packages\Schemas\XML

All were success except twice on the 1st line above it said "No More Files"

I don't really know why its doing this stuff. The other developers have the exact same directory structure as I am using. Does it give you any clues?

thanks

Hi,

Would you please provide some more detailed information about that problematic project, which project type of it?

Have you tried to clean its solution and rebuild it for a test? Is it possible for you to use the filemon.exe utility to monitor the debugging session?

Thanks!

Best regards,

Gary Chang
