Its not loading the symbols.

SR.Matrix.DataAccess.dll
C:\projects\SR.Matrix\SR.Matrix.Atlantis.Server\bin\Debug\SR.Matrix.DataAccess.dll
Yes No Skipped loading symbols. 7 1.1.0.0 3/28/2008 10:07 AM
01500000-0151C000 [4288] nebServer.exe: Managed

Next question is why not?

Thanks,
Schneider

Hi Schneider,

Thanks for your conformation.

Yes, this is very possible a symbol file loading issue. Breakpoint is set in the source file, so the debugger&IDE must map this source file to the running code virtual address to inject a "int 3" breakpiont. The source lines <---> virtual address mapping information is contained in the pdb files, so the loading of pdb symbol files is critical in this process.

I will wait for your further checking to the symbol loading status.
Thanks.

Best regards,
Jeffrey Tan
