To anyone with more knowledge than I have wit .NET  
(Basically Everyone),

I can not get past the following error :

Server Error in '/adonetsbs/Chapter 12/VB/WebForms –  
Finish' Application.

---

The Microsoft Jet database engine cannot open the  
file 'C:\adonetsbs\SampleDBs\nwind.mdb'. It is already  
opened exclusively by another user, or you need  
permission to view its data.

Description: An unhandled exception occurred during the  
execution of the current web request. Please review the  
stack trace for more information about the error and  
where it originated in the code.

Exception Details: System.Data.OleDb.OleDbException: The  
Microsoft Jet database engine cannot open the  
file 'C:\adonetsbs\SampleDBs\nwind.mdb'. It is already  
opened exclusively by another user, or you need  
permission to view its data.

Source Error:

```
Line 116: Me.dsMaster1 = CType(Session  
("dsMaster"), DataSet)  
Line 117: Else  
Line 118: Me.daCategories.Fill  
(Me.dsMaster1.Categories)  
Line 119: Me.daProducts.Fill  
(Me.dsMaster1.Products)  
Line 120: Me.daOrders.Fill(Me.dsMaster1.Orders)
```

microsoft.public.vsnets.general: OleDbException (0x80004005):

Source File: c:\inetpub\wwwroot\adonetsbs\Chapter 12  
\VB\WebForms – Finish\WebForm1.aspx.vb Line: 118

Stack Trace:

```
[OleDbException (0x80004005): The Microsoft Jet database engine cannot open the file 'C:\adonetsbs\SampleDBs\nwind.mdb'. It is already opened exclusively by another user, or you need permission to view its data.]
