I tried to upload the file for you but I don't think it was successful. The progress never changed status from Connecting. Maybe because the file is 3.1 GB in size? If the upload was not successful, you can download the file from our ftp site. I placed it at:

<ftp://ftp.bre.com/downloads/bre/michaelhlavinka.zip>

Can you notify me when you have the file so I can remove it from our ftp server?

Thanks,

Michael
