There is no such built in policy how ever you can create your own Administrative Template for use with group policy to change the follow registry entry:

HKEY_CURRENT_USER\Software\Microsoft\Windows\CurrentVersion\Explorer\User Shell Folders\Favorites to point to for an example
\\server\share%\%username%\favorite This will not added the features such offline support and sync.

323639 – HOW TO: Create Custom Administrative Templates in Windows 2000

This step-by-step article describes how to create custom Administrative Templates to use with Group Policy settings in a Windows 2000-based domain. Group Policy templates provide an interface that you can use to apply registry changes to the target...
