I am running Windows 2000 server on SP3.

Recently I have started to get the following error messages in event viewer.

Event Type: Error

Event Source: SAM

Event Category: None

Event ID: 12294

Date: 10/08/2004

Time: 10:30:15

User: IRT\administrator

Computer: IRTUKGILDCS0001

Description:

The SAM database was unable to lockout the account of ? due to a resource error, such as a hard disk write failure (the specific error code is in the error data) . Accounts are locked after a certain number of bad passwords are provided so please consider resetting the password of the account mentioned above.

made by directory 89a39c34-f567-4228-abe6-b351d4cb16c8._msdcs.irt.bb.wan. Will try again later.

I have looked at article number 306091 in the Knowledge Base but this does not seem to offer any solution.

Can anyone help me?

Cheers

Ian
