In news:%234LLcSKFFHA.1348@TK2MSFTNGP14.phx.gbl,  
dm4714 <spam@spam.net> made a post then I commented below  
> *The probably is that we apparently have some erroneous natting going*  
> *on and the primary is seeing our source IP address as something*  
> *totally different. The only reason I know this is that I ran NetMon*  
> *on the primary server and tried to do a DNS transfer from master.*  
>  
> *In the meantime, I went and added the natting address and everything*  
> *is working. I'll have to get my networking group to see what I'm*  
> *getting the wrong address.*  
>  
> *Arrghhh--*

Well, at least we're on the right track. I am curious to your results,  
please post back.
