1.) Make sure the folder exists.

\Documents and Settings\%username%\Application Data\Microsoft\Internet Explorer\Quick Launch

2.) Create a new file named 'desktop.scf' with the following contents, then drag it to the quick launch bar.

[Shell]

Command=2

IconFile=explorer.exe,3

[Taskbar]

Command=ToggleDesktop

| In Windows 2000 SP4 with admin rights.

|

| I right-click on the taskbar, choose Toolbars/Quick Launch.

|

| Error message is: Cannot create toolbar.

|

| Same message for the Desktop toolbar

| I may have deleted it (cleaning garbage). How do I re-  
| create it?
