hi,

I was upgrading my computer from 98se to 2000, it was just a upgrade not a clean install, but its when wrong when... it does everthing ok untill its gets to the last part were its doing the final tasks. It keeps doing them and rebooting??? I know it has to reboot but when it restart it just starts the tasks again. so my question is this is their any way I can copy files from my C: drive to my other D: drive using dos as I cant get the computer to boot at all. (I just want to copy my documents from C: to my D:)

And dont tell me to use xcopy I cant get it working..

ANy help would be great

Cheers

Paddy - ktf
