Hi! I'm having a problems with my pc and it's seem that it prompt an error messages after restarting my PC it will prompt an error message "pagefiles corrupts" .After it runs for CHKDISK it will replaced (recovered) the files.But it also will restarts by itself when I'm doing my works and prompts this error message and run for CHKDISK to replaced!!It happened frequently! How to checked a bad sector for hard disk??Is there any solutions for me to solved this problems.
Thanks for the help...
