Hi

Nothing builtin that can easily can help you here I'm afraid.

The UserLock product in the link below is an option

<http://www.softwareshef.com/products/display.asp?p=42>

Microsoft's solution:

You could install the CCONNECT Microsoft Resource Kit utility onto every computer, it is in the Win2k Server Resource Kit, Supplement 1 (pay ware, and you will need a SQL server database as well).

More about CCONNECT here:
