"Microsoft me and internet explorer error" wrote:

| I have error messages that pop up when trying to open new pages while
| surfing. I have the windows me and Internet explorer's latest version.

The

| messages say :

|

| Explorer caused an error KERNEL32.DLL and it will close. If problem
| persists try restarting your computer. or

|

| Explorer caused an error MSTHTML.PLL and it will close. If problem
persists

| try restarting your computer.

|

| Sometimes it goes into a blue screen with the message:

| Windows caused an error

| Microsoft_Vcache(01)000015AK. Error0246.016747FB

|

| I BELIEVE THERE ARE MULTIPLE PROBLEMS GOING ON HERE.

|

| Does anyone know what I need to do to fix these problems?
