I am having problems installing SFU via Group Policy. I only want to install NFS Client and Us

Anyhow, when I manually run "msiexec /i sfusetup.msi TRANSFORMS="SfuNoSNFSAuth.mst;mycustom.mst

Title Bar: Microsoft Internet Explorer

Message: Exception occurred while executing the function: window_onload.

After that I am not able to configure NFS nor the User Mapping Service. Services are running i

Any reason why it doesn't install properly via Group Policy but is fine running msiexec manuell

Thanks,

Victor
