Hi

I'm running on W2k Pro, standalone PC, not connected to any network and Server.

Based on my W2k Pro OS, please advise, can I still create a Group Policy with a higher priority in the Domain/OU or any other method to save the default settings and the amended settings.

Not possible, in this scenario.

I never tested but you can test if it works...

- 1-What you can do is to backup the "%systemroot%\system32\grouppolicy" folder.
- 2-Then make a few changes, reboot the computer and check if they're working.
- 3-If yes then check the version number in  
%systemroot%\system32\grouppolicy\gpt.ini
- 4-Then replace the files with the bacup that you made in the first step.
- 5-Increase the version number that you checked in step 3 on  
%systemroot%\system32\grouppolicy\gpt.ini
- 6-Let me know if that worked.

--

I hop that helps

Re: save w2k group policy setting

Hi,

Thank you for your reply.

I'm running on W2k Pro, standalone PC, not connected to any network and Server.

Based on my W2k Pro OS, please advise, can I still create a Group Policy with a higher priority in the Domain/OU or any other method to save the default settings and the amended settings.

Also, do Windows 2000 Default Group Policy Restore Tool support W2k Pro?

Thank you very much.

ks teo

Hi

Why don't you create a Group Policy with a higer priority in the Domain/OU

?

If later you want to remove the settings all you have to do is to delete  
the

policy without messing with the originals.

To restore Default Policies in windows 2000 check:  
Windows 2000 Default Group Policy Restore Tool

Thank you for your reply. Sorry, forget to state that I'm on  
W2k Pro. I  
run  
c:\winnt\system32\gpedit.msc to access the group policy.  
Any utility to  
save  
or load the default and amended gpo?  
Thank you again  
ksteo

Hi anyone,

I would like to set a group  
policy on the user  
configuration to  
remove

the

Run menu from Start Menu  
and others.  
Before I do that, I would  
like to save the default  
settings to file  
so

that,

in future, I can load the  
default settings back.  
Please advise me how to do  
it.

Thank you in advance,  
ksteo
