hello

i have server 2003 with a domain

i need to configer policy to disable the usb for some user

I know that group policy does not have this option built in to it as of windows 2003.

i found an article which tells me how to create a custom adm file and import it to group policy to accomplish what i want (disable usb storage)

Its help me to create new .adm file and add it to GP But it's not Stored in a polices key Please tell me how can I do it I try to read in Microsoft kb but I can't understand Can you tell me here?

thank's

.
