Now that you have supplied the model number we discover it is an "Unmanaged switch" (See below) You have to buy a new one to do what you want.

Affordable, Unmanaged 10/100 Ethernet Switching

The 3Com® Baseline Switch 48-Port Plus 2 10/100/1000 delivers highly affordable wirespeed switching for simple, high-density, copper-wired Ethernet networks that don't need management capabilities.
