Thank you very much for your reply

I have tried the elimination method
suspected some computer and changed the network adapters
the link is still slow
i then noticed that if i have about 10 pcs on inrespective of the pc
the speed improves.
i have been using the same bandwidth for about 2 yrs now
the problems started after my equipment where damaged by thunder storm
i have bought a new set of equipment but still the speed still drops
what do u thing i should do ??
Thanks for your anticipated reply
