OK, go to Start / Run and Copy/Paste the following line in the Open box:

```
%Windir%\PCHealth\HelpCtr\Binaries\HelpCtr.exe
```

Press OK. If this does start the help, go to the following website and follow the instructions to create the .reg file there.

"Help and Support" link from Start Menu does not work:

<http://www.mvps.org/sramesh2k/startmenuhelp.htm>
