Thanks for the responses.

I got a remedy from Jim Byrd in microsoft.public.windowsxp.general:

To delete ALL Addresses in the Drop Down list, go here and download and install Mike Burgess' DelTypedURL.inf at

<http://mvps.org/winhelp2002/delcache.htm>

Worked good, close OE & IE first.

Len

Change Days to keep in History to 0 (or maybe more practical to 1) and click on Apply and OK –Internet Options, General, History. You may need to restart your computer for it to be put into effect.

~~~~~

Hope this helps.
