Did your system come with XP Pre-installed? Or did you install it yourself and have the CD?

If it came preinstalled, there should be an I386 folder on the hard drive, in the root directory of the C: drive (usually). At the C:\Windows> prompt type CD \I386. Do a DIR command here for MSGINA.DL\* You should find MSGINA.DL\_

If so, (hope this works in Recovery Console) type EXPAND -R MSGINA.DL\_  
C:\Windows\System32\MSGINA.DLL

If you installed XP yourself, do the same, but use the CD drive as the reference.

At the C:\Windows> prompt type X: where X is the letter of your CD-ROM drive. Then CD \I386 and follow the rest from above.

The system says that "No files found with that name" for the DIR .

"Doug Knox MS-MVP" wrote:

Ok, DIR in Recovery Console may not support the /S or /A parameters.

At the C:\Windows> prompt type in CD System32\DLLCACHE Then do a

<news:233B6F94-1097-41D3-9057-89C6B983D20A@xxxxxxxxxxxxxxxxxxxx>

for the dir command the error msg is "invalid parameters"

for the prompt the error msg is "invalid command"  
Thank you

"Doug Knox MS-MVP" wrote:

What happens when you do the DIR  
command?

DIR MSGINA.DLL /S /A

Do this from the C:\Windows> prompt

For the copy command the  
system says that "file not  
found"  
for dir command it says  
"wrong parameters"

"Doug Knox MS-MVP"  
wrote:

That's what  
its supposed  
to do. At  
the  
C:\Windows>  
prompt,  
type in

CD  
SYSTEM32  
COPY  
dllcache\MSGINA.DLL

Then  
reboot. If it  
says file not  
found, type

CD  
\WINDOWS  
DIR  
MSGINA.DLL  
/S /A

Note the  
location of  
any  
copy/copies  
it finds, and  
the date on  
the file.  
Copy the  
newest one  
from its  
folder to the  
Windows\System32  
folder using  
the COPY

Re: The logon user file msgina.dll file is missing. restore it.

command.

During  
safe  
mode  
the  
system  
is  
saying:  
"The  
logon  
user  
interface  
DLL  
msgina.dll  
file  
is  
missing.  
Restore  
it"

When  
I  
start  
the  
pc  
on  
repair  
mode  
RC  
using  
the  
cd  
xp,

Re: The logon user file msgina.dll file is missing. restore it.

the  
system  
asks  
for  
administrator  
password.  
I  
do  
not  
have  
an  
administrator  
password.  
I  
use  
my  
log  
in  
name  
to  
do  
the  
administrative  
work  
and  
the  
system  
never  
asked  
for  
administrator  
or  
administrative  
password  
when  
I  
installed  
XP

How  
do  
I  
find  
the  
administrative  
password?

Thank  
you

Re: The logon user file msgina.dll file is missing. restore it.

Just  
hit  
enter  
and  
it  
will  
continue
