Can any one join in or is this a private ding dong<G>?

Hertz is English your first language?

Hope this helps.

Cannot transfer apps.

Acronis is a fantastic backup to use prior to changing over.
Verify the image just to make sure it's good.

Hertz_Donut wrote:

Arconis will not do it either.

Vista is a radically different OS than is XP.

There is no tool available that will restore apps from XP on a
clean install of Vista.

I hope your response is not indicative your other "Computer
Consultant" skills.
