MY TASKBAR IS NOW TWICE THE HEIGHT IT USED TO BE.. HOW DO I RESIZE
DOWN.. I HAVE WINDOWS XP.....
IT WILL DRAG UP TO HALF THE SIZE OF THE SCREEN , BUT IT WON'T DRAG
DOWN TO NORMAL SIZE ????
I HAVE HIT RIGHT CLICK ON EMPTY SPACE TO PROPERTIES AND TRIED
EVERYTHING POSSIBLE , WITH NO LUCK...

THANKS FOR ANY HELP.....

Ow, my ears hurt (from your screaming).
Ow, my eyes hurt (from reading all caps).
Screaming doesn't get you more attention. It gets you less attention.
Children should first ask their parent(s) for help.
