hello,

I have 2 question, please help me

1_ there is any way to show "second" in the "date modified" of a file?

for example, in the "my picture" we rclick/view/detail

now in the "date modified" we can see for example (08/06/28 13:24) and i

want to see (08/06/28 13:24:12)

what should I do?

2_ I need "Shamsi calendar" in my windows

there is any patch or update to add this feature to my windows?

thanks

.
