| Hi,

|

| In the past when I would put in a CD to my drive the  
| program would automatically start. I did not have to  
| click on an icon or use the run command to open the  
| program. Now for some reason, it will not do that  
| anymore. Is there a setting that I need to change  
| somewhere to get that back?

My Computer

Right-click CD/DVD drive

| Properties |

  /Autoplay\
