Brad,

The "Everyone" and "SYSTEM" groups are missing in the list. Right-click the "User Account pictures" folder and choose Properties. In the Security tab, add SYSTEM to the list, and assign "Full Control" to it.

Using AccessEnum is a nice way to view file / folder / registry permissions.

Ramesh,

CORRECTION: I missed the space between the CACLS and * the first time; here is what I get now:

```
:\Documents and Settings\All Users\Application Data\Microsoft\User Account Pictures\Administrator.bmp BUILTIN\Administrators:F
```

```
BUILTIN\Users:F
```

```
C:\Documents and Settings\All Users\Application Data\Microsoft\User Account Pictures\ASPNET.bmp BUILTIN\Administrators:F
```

```
BUILTIN\Users:F
```

```
C:\Documents and Settings\All Users\Application Data\Microsoft\User Account Pictures\Brad.bmp BUILTIN\Administrators:F
```
