>-----Original Message-----

>Hello everyone,

>

>Does anyone know what I can do to completely remove
Windows Messenger from

>my computer?? I have tried removing it from my computer
with the Add/Remove

>Programs section and it doesn't start up on my computer
anymore when the

>computer starts, however, just about anytime I open
something up, the

>program reloads itself onto my computer! Any help that
anyone could give

>would be greatly appreciated!

>

>Follow the instructions that are listed below

>.

>Start

Conrol Panel

Adminstrative Tools

Services

Scroll down to Messenger

Double click on it

Dialog box opens with selectable (startup type)

Click on down arrow to the right

Select Disable and Apply
