We remember everything.

Hello all,

Please find below, a text that my Dad's cousin in Boca Raton emailed to me. I hope you find it as amusing as I did.

regards,

Richard Keirle

The European Union commissioners have announced that an agreement has been reached to adopt English as the preferred language for European communications, rather than German, which was the other possibility.

As part of the negotiations, the British government conceded that English spelling had some room for improvement and has accepted a 5-year phased plan for what will be known as EuroEnglish (Euro for short).

In the first year, "s" will be used instead of the soft "c". Certainly, sivil servants will resieve this news with joy. Also, the hard "c" will be replased with "k". Not only will this klear up konfursion, but typewriters kan have one less letter.

There will be growing publik enthusiasm in the sekond year, when the troublesome "ph" will be replaced by f". This will make words like "fotograf" 20 per sent shorter.

In the 3rd year, publik akseptanse of the new spelling kan be ekspetekd to reach the stage where more komplikated changes are possible. Governments will enkorage the removal of double letters, which have

always ben a deterrent to akurate speling. Also, al wil agre that the horrible

mes of silent "e"s in the languag is disgrasful, and they would go.

By the 4th year, peopl wil be reseptiv to steps such as replasing "th" by "z" and "w" by "v".

During yer 5, ze unesesary "o" can be dropd from vords kontaining "ou", and similar changes vud of kors be aplid to ozer kombinations of leters. Und efter ze fifz yer, ve vil al be speking German like zey vunted in ze forst plas.
