That is on them, poor scripting. To not see them again:

Check your settings here:

IE/Tools/Internet Options/Advanced/Disable Script Debugging and Display a notification about every script error.

Disable the Script Debugger in IE (Line 142)

How to Troubleshoot Script Errors in Internet Explorer

<http://support.microsoft.com/default.aspx?scid=KB;EN-US;q181698&>

If you continue to get the errors after trying the above and/or the settings become unchecked, rename mdm.exe
