Hi Tina

You can download SP1a from here. Download via a Broadband connection is advisable.

<http://www.microsoft.com/windowsxp/pro/downloads/servicepacks/sp1/default.asp>

also try here:

"Order the Windows Security Update CD"

<http://www.microsoft.com/security/protect/cd/order.asp>

Any other Updates not included on those can be manually downloaded via the Windows Update Catalog link on the Windows Update page.

| Due to many reasons, I do clean reformat at least 3  
| times a year. Have to use dial-up, as it is all that is  
| available in my area.

|  
| Would like to know if there is any way to download and  
| burn all updates straight to CDs?

|  
| I end up spending most of two days just re-downloading  
| all the updates. It would save me major time.

|  
| Thanks in advance,  
| Tina Johnson
