well ,isn't that nice of the spyware to tell you it's not working right, instead of a crash error.
use add/remove programs and
spybot safer-networking.org
ad-aware lavasoftusa.com

>got the following pop up error. "warning, your 180 search
>assistant has been uninstalled, possibly by a third party
>without your consent". it then gave me 3 options, option
>1 = reinstall; option 2= do not reisntall and clean up
>files, option 3 = remind me later. any ideas what this
>error is? should I be concerned? I clicked on remind me
>later for now.
