Win XP Home SP1, ZA Pro v 5.5.062.000, Phoenix – AwardBIOS v6.00PG

(I already posted earlier about this in an XP NG but didn't solve the problem yet. I crossposted this to news:comp.security.firewalls and news:microsoft.public.windowsxp.general . There was a storm outside and the machine, usually constantly on, had turned off. After I booted up, I noticed the problems.)

I can't get Character Repeat to work. I tried the settings in Control Panel > Keyboard > Properties to no avail. Accessibility Options are not checked. In the BIOS, Advanced BIOS settings, I have Typematic disabled. I believe that's the default, and I tired Enabled too.

I also noticed the printer didn't work, but I repaired by reinstalling the USB controller, Standard Enhanced PCI uo USB Host Controller. (I rightclicked on My Computer > Manage > Device Manager > Universal Serial Bus controllers). The printer now works.

In the Event Viewer (Control Panel > Administrative Tools > Event Viewer) there are some errors and warnings:

Under System:

Event Type: Error

Event Source: Service Control Manager

Event Category: None

Event ID: 7000

Date: 11/26/2004

Time: 10:21:35 AM

User: N/A

Computer: PRIMARY

Description:

The SetupNT service failed to start due to the following error:

The system cannot find the file specified.

Several like this:

Event Type: Warning

microsoft.public.windowsxp.general: Character Repeat Broken, ZA events

Event Source: Disk  
Event Category: None  
Event ID: 51  
Date: 11/26/2004  
Time: 10:20:29 AM  
User: N/A  
Computer: PRIMARY  
Description:  
An error was detected on device \Device\Harddisk0\D during a paging operation.

Then several under application, all form ZoneAlarm:  
Event Type: Warning  
Event Source: Ci  
Event Category: CI Service  
Event ID: 4101  
Date: 11/26/2004  
Time: 11:41:21 AM  
User: N/A  
Computer: PRIMARY  
Description:  
The content index filter for file "c:\windows\internet logs\zalog2004.11.25.txt" generated content data more than 8 times the file's size.

The log number is different for each of the warnings. There are several.

What's wrong, and how do I fix things?
