1. Open Internet Explorer >Tools > Internet Options > Advanced tab
2. Uncheck the box: "Use passive FTP (for firewall & DSL modem capability)

```
| I am trying to get into a ftp site, everything is correct (address, password,  
| name...etc) the only catch is, I type in the address in I.E. and the login  
| window does not even popup. Infact it says the address and/or password  
| incorrect OR there is no connection. I even tried downloading off FTP sites  
| and that doesn't even work it says the same thing...anyone know if I have to  
| enable FTP? I know its not the connection, unless I have to install something  
| for FTP but I doubt it. I downloaded a few FTP programs and they game me the  
| same babble. Anyone that could help me please do =)
